

## Volunteers Wanted for a Research Study

# Do You Have Low Back Pain?

We are currently recruiting participants for a paid research study that is evaluating pain sensitivity during an episode of low back pain. Participation includes 3 visits over 12 weeks where you will be:

- Completing questionnaires about your pain
- Undergoing a sensory assessment
- Providing blood samples
- Using a mobile application for management over 12 weeks

This study includes three visits to the pain research lab and participation from home.

You may be eligible if you are:

- Ages **45-65** years
- Have had low back pain for at least **24 hours but less than 2 weeks**
- Do not have a specific cause of back pain, such as a herniated disc or trauma

You will **not** be eligible if you have

- Other conditions that cause pain
- Neurological deficits such as weakness
- Are pregnant or within 3-months post-partum
- Had previous spinal surgery
