

Volunteers Wanted for a Research Study

Do You Have Chronic Low Back Pain?

We are currently recruiting participants for a paid research study that is evaluating pain sensitivity during an episode of low back pain. Participation includes:

- Completing questionnaires about your pain
- Undergoing a sensory assessment
- Providing blood and saliva samples
- Watching online modules over 12 weeks

This study includes two visits to the pain research lab and participation from home.

You may be eligible if you are:

- Ages **18-60** years
- Have had low back pain for at least **3 of the last 6 months**
- Do not have a specific cause of back pain, such as a herniated disc or trauma

You will **not** be eligible if you have

- Other conditions that cause pain
- Neurological deficits such as weakness
- Are pregnant or within 3-months post-partum
- Had previous spinal surgery
